

Dear Judge Thyng,

I was looking over

your order for me to have a mental health evaluation. You said, "IF possible it should be done at the Federal medical facility in Springfield, Missouri or Butner, North Carolina or Devens, Massachusetts." I can understand you not recommending this place. I have been here 30 days and I have not seen a medical doctor about my medication. All I want is to see the doctor about some medication to keep the demons away.

This lady I attended AA with her brother was a state Judge. Every time I saw a psychologist she would always know my business. I know her brother was letting her listen in on my therapy with my doctors. I hope the doctors here do not do the same thing.
I thank you for letting me express my feelings

Sincerely,

DENNIS D. CARSON
